

## **Letter from Prince Rasheed, Maharaja of The Nicobar Islands**

Dear Lars,

Thank you for recognizing mine and my family's heart, for recognizing our nature of being human, for helping us to recognize our dream, for your great understanding about our culture, to live the way we are during your stay, for helping us to find the potential within us, for eating the food we eat, for listening to us even though we sometimes sound negative due to our reality in the present situation, to understand it from our perceptive and pulling us up into positive world, helping us to see opportunity, making us see the light of the future, for sharing your experiences and knowledge, for helping us to know ourselves, for coming and enable us to build ourselves with strong positive attitude.

My niece Taanu (Benazir) told me that she appreciates is that you are very honest with your words and focus on the reality instead of focusing only on the happiness. Taanu says that she has learned that the reality is happiness. Choosing right word and talking in the right way is happiness.

My niece Ummi Fathima ( Attu) says she likes that you are a great mentor whom we can really learn from. When you speak we understand it very easily and clearly.

My Son Amaan says that he likes the way you asked questions, deeply listen, understand and than speak. You are clear with your question and than with a very clear answer. Your quote "too much analyzing can be paralyzing," He will always remember the way you stay in a quite place to reflect.

My nephew Ismail (Ismu) says that he likes that you have positive choicest of your own words. That he learned how to make the right choices of words before speaking without hurting any one with the truth.

My Son Rayhaan says that he likes that you have a strong positive attitude, high self-esteem, high self-respect, high values, with integrity & dignity. He is very happy to know a man who has all this quality, which encouraged him to live a great life ahead in his future.

My kind regards to your wife, all children's and all family members.

Affectionately yours

Rasheed
